

Friday 29th January 2021

Dear FEOFFEE,

I am writing to say an enormous thank you in the support you have provided the school over the last few months, but especially in the most recent weeks, to support those children who need extra IT equipment to support the remote learning currently happening in lockdown.

As a result, we have been able to provide families that have no device as well as families who are struggling with limited equipment that is needed amongst a number of different people in the household.

This has supported their education at this tricky time and allowed them to access the lessons and work we are providing on Google Classroom.

As a staff it has been invaluable to get these out to the families in need as has the support from Mr English in ensuring the devices are ready to share to the families.

We have had a number of emails of thanks and appreciation from parents themselves as well as comments about what a difference this has made to their children and households including raising motivation and engagement.

Mrs Gosling and I value enormously all you are offering in support of both the education of children at Christopher Rawlins but also supporting the disadvantaged families in Adderbury and Milton. We look forward to continuing to work with you on a number of different projects.

Many thanks.

Kind regards,

Mrs Sarah Smith
Headteacher.
